ABOUT

The Glassell School of Art Early College Program for emerging artists in high school offers a supportive, creative environment where young artists can develop their talents, build portfolios for college applications, and engage with like-minded peers. Through our partnership with the University of St. Thomas, students have the option to earn transferable college credits while still in high school. Our program features 14-week courses during the fall, spring, and summer semesters. The classes are taught at the college level by our Studio School faculty, who are not only educators but are also practicing artists. In the summer, the program offers summer-intensive sessions—focused, immersive classes designed to deepen students’ skills and understanding of various art forms.

The Glassell School of Art, formerly the Museum School, was established in 1927 as part of the Museum of Fine Arts, Houston. Named for Houston businessman and arts patron Alfred C. Glassell, Jr., the school offers classes in all media areas, for children, teens, and adults of all experience levels. The only museum-affiliated school in the United States serving students from pre-K through post-graduate, the Glassell School of Art offers year-round arts instruction, a prestigious Core residency program for professional artists and writers, and civic-engagement projects.

The school’s new building, designed by Steven Holl Architects and opened in 2018, provides more than 80,000 square feet of classroom and exhibition space. With 22 classrooms, an 80-seat auditorium, and year-round programming for children and adults, the Glassell School of Art serves more than 7,000 students per year, offering a wide range of studio, lecture, and workshop programming for students of all ages and skill levels.

MISSION STATEMENT

The Glassell School of Art at the Museum of Fine Arts, Houston, is a dynamic art community that engages artists of all ages, experiences, and backgrounds. The school offers art education programs for children, teens, and adults; coauthors civic engagement opportunities; and maintains the international Core Residency Program. We are committed to fostering an environment where excellence is the standard, creativity prospers, and the transformative power of art is accessible to all.
