

MFA **H** *Rienzi*
Family Day Activity:
Design Your Own Hat!

Halston was known for his unique and futuristic designs by the end of his hat-making career. Some had functional components, such as a sun visor, and some were designed like wearable sculptures. Carroll Masterson's collection includes evening hats in unique forms.

Try your hand at fashion design by creating a hat for the image below inspired by her daughter's portrait, which is on view in the living room at Rienzi.

- What kind of shape do you think would look best on her? Circular? Square? Oval?
- What kind of materials would you use to create a hat? Fabric? Feathers? Straw?

Check out the exhibition *Hats Off: Halston Hats from the Masterson Collection* through January 3, 2021, at Rienzi.
