

James Gallagher Collage

EVENT PORTRAITS

Pose for a photo and get an original collaged portrait within hours!

James Gallagher brings his unique style of collage portraiture on the road! Sitting at a long table with knife, glue, and paper galore, Gallagher cuts expressionistic portraits of event participants with a focus on fashion and style. Each portrait takes 30 to 60 minutes and they are done in a first-come, first-serve manner. The process is simple, subjects pose for a full-body portrait, leave their contact information, and are contacted when the portrait is finished. If there are more than 12 portraits in one day some may have to be done after the event has ended and mailed with a \$25 shipping fee added.
